the Sentiarl for the Campaign, without ordering it for the full term of a year, we publish the following rates, at which we will send one or more copies of our several editions, from July 75th to December 1st. As the Election occurs Nov. 4th, this ought, in these days of telegraphs, to enable us to give the result in all of the States of the Union except California, in the last

The above rates for the Daily and Tri-Weekly are somewhat less than our regular terms. For the Weekly they are the same as \$1 per year. Use- Know Nothings in denouncing Col. Farmour as CULARS THE DOCUMENTS.

Congressional Normation.—The Recine publicans of Racine will present the name of WM. | against Freedom and FREMONT? P. LTOS, of that city, as a suitable candidate for Congress in this District. Mr. Lyon is a genrleman who would do eredit to himself and his constituents in the Rouse of Representatives.

"The imag which the Black Republicans hav presented I have felt it my duty to accept, and I have transferred it from an Abolition House to my Congressional District."

All who condemned the craven and murderou assault on Senator Strayer, are set down by Messrs Brooks & Keitt as " Hisck Republicans and "Abolitionists," We trust that they are correct in this designation.

The Ailles Again. The Washington correspondent of the Bo

Altha, writing under date of July 24th, thus alhades to the cordial alliance now existing between the Know Nothings and the Sham Democracy. They are "hand and glove" with each other, and will no doubt act in concert throughout the campaign. Indeed the Fillmore men in New York stready boast that the Buchmoors will vote their ticket, it that will prevent the Empire State from going for Fuguers. But to the Allas article : The political union now established and recognized here is that of the Fillmore and Euchanan parties, against the Republican party. It is the natural combination of the weaker party against the strongest, in a three cornered fight. In the Illinois election case, which probably determines the rote of that State in the House between Bubasan and Fremont, the Americans gave the choice to Buchanan. Yesterday they gave their case. In both instances the South was an absolute unit against anything savoring of Republicanism. The Fillmore party is as bitterly proclavery. North and South, so far as its leaders are oncerned, as is the Buchasan party. Among the rank and life North, however, there are still thousands of honest opposeuts of slavery extension, but there cannot fail to see before long the train bearing of parties. The only hope, the only safety for the North, is to do just what the South has always done—not united. In both instances the South was an abso

The Pre-Slavery organs extend their researchca still further back; the News here having published a scandalous acticle reflecting upon the birth and parentage of Col. Francer; is if these were qualification, for office in a Democratic Garenment.

THE CHEEN MOUNTAIN STATE.—The home of Erman ALLIN and General Stark is well-nigh unanimous for Freedom and Fremont. Great fears are entertained that after the election there.

Represented to Kentucky,-The Kentucky Whigh would not be suprised if Fremont's vote in that State would be awelled up to six thousand votes." To this the Newport, Ky , News, (Free Soil,) replie-: "Would the Whig be surprised if it should find, in November next, that there

The Knew Nothing News The News, professedly the leading Bremanan organ in this State, which but a few days since opened its columns to a communication urging the nomination of a K. N. Electoral ticket in Wisconsio, now follows up this demonstration by bringing the following indictment against Col. FREMONT

THE MODEL PROTESTANT.

He (Fremont) receives his education in Charles-ton, under the late Bishop England, of the Roman Cathelio Church. (Testified to by the editor of the Savannah Republican, and other respectable authorities.)
He sends his child, or adopted child, to be educated in the Roman Catholic College of George-

(Attested to by the Editor of the Philadelphia Dada News, and, we believe, never denied, even by Fremont's friends.) He is married by Father Van Horseigh, a Ro-

(Admitted, as a fact beyond controversy or dispute,—as basing his Romanism on a solemn accrament of the Romish Church.)

Ile goes to a Koman Cutholic Church in Washington, crosses himself with so-called boly water, at the door, and makes the sign of the cross when he goes into his pew. (The testimony of Allerman Fulmer,—to affirmed on oath, if Fremont denies)

This the Enquirer claims as "Buchanan's re cord on Slavery, without a Blemish." The Richmond Euquirer, it will be remembered, is the oldest leading 'democratic' organ of the South. Here we have the avowal and claim of Buchanan's two principal organs-for no other "democratic" papers occupy the high party rank of the Enquirer and the Union-that " Buchanan never uttered a word against Slavery," but that he is " in advance of any and every Statesman in the confidence and affections of the South," and "is promoted to his proper position" in being nominated to the Presidency, because of his "efficiency of service to the South."

STEPHEN A. DOUGLAS, the arch-Northern traitor, endorses Buchanan for the same reason, and because he is on the Douglas-Pierce Platform, as to!lows:

CROPS IN MICHIGAN.—The harvest in this State is nearly over. Hay and wheat have been se-cured without having had scarcely a single drop of rain upon them after boing out. Wheat in some counties has suffered slightly from rust and worll, but the kernel is generally plump and beautiful. Corn, oats and potatioes are suffering for want of rain. For almost a month not a drop lar want of rain. For almost a month not a drop has fallen, and the ground is dry rs heated ashes. The corn leafs are rolled into stems, and potato vines are fast withoring. We must have rain or these two crops will be valueles; and oats only a moderate yield.—Det. Adv.

Chars in Illisois .- By private advices from Decause we learn that the crops in that part of the Slate are in a sad condition. Com is drying and old farmers assert that onless there is a rain soon, it will amount to nothing at all. Wheat comes up very slim, and in many places it was not cut at all.—Outs are a failure, and putatoes also.—Chicago Journal.
